FOR IMMEDIATE RELEASE

Late Night Lane Closures on Ventura Freeway (US 101) for Pavement Rehabilitation

LOS ANGELES – The California Department of Transportation (Caltrans) will reduce lanes and close ramps on north- and southbound US 101 to install pre-cast concrete slabs, repave lanes, and install new guardrail Friday, October 14 to Sunday, October 16. Motorists should expect delays and consider alternate routes.

Lane, connector, and ramp closures will occur at the following locations:

- Up to three lanes closed on southbound US 101 from Las Virgenes Rd. to Parkway Calabasas, 9 p.m. to 10 a.m.
- Up to three lanes closed on northbound US 101 from Woodlake Ave. to Valley Circle Bl., 10 p.m. to 6 a.m.
- One lane closed on southbound US 101 from Reseda Bl. To White Oak Ave., 10 p.m. to 6 a.m.
- The connector from northbound I-405 to northbound US 101 will be closed, 11 p.m. to 5 a.m.

The pavement on north- and southbound US 101, connectors, and ramps will be rehabilitated by using rubberized hot mix asphalt, Portland concrete cement, and pre-cast concrete slabs. The existing metal beam guardrail (metal and wood barriers) will also be replaced to enhance safety.

This \$62 million contract was awarded to Myers and Sons Construction, LP of Sacramento, California. The project is funded by the State Highway Operation and Protection Program (SHOPP). The project is expected to finish in fall 2016.

Remember to Be Work Zone Alert. The CHP will be on duty.
